

Miguel Lopes is WeDo technologies' new Alliances and Market Research Manager

Lisbon, 2nd September 2009 – With the aim of expanding the approach of “Business Assurance” on the international market and of new sectors such as Retail, Finance and Utilities, WeDo technologies has strengthened its team with the recruitment of Miguel Lopes to the post of Alliances & Market Research Manager. This is a return to WeDo technologies, since between 2002 and 2006 Miguel Lopes worked in product management and sales support.

Miguel Lopes has vast experience in Business Assurance methodologies and tools and in his new role will be mainly responsible for commercial management with partners, the development of indirect sales channels and relations with market analysts.

Before joining WeDo technologies, Miguel Lopes was responsible for BPN's Card Issuing Unit, where he had the opportunity to contribute to the reorganization of the business and operating processes in the area of payment systems. He has also held positions at SIBS and Caixa Geral de Depósitos bank.

“It is with great satisfaction that I return to WeDo technologies, where I have been privileged to participate in the growth of a company which has quickly become the world leader in revenue assurance. In my new role, I hope to contribute to the company's global expansion, strengthening management with its partners, indirect sales channels and relations with market analysts,” he said.

Miguel Lopes has a degree in Economic Sciences from the Universidade Católica Portuguesa (Portuguese Catholic University).
